RE: REACH & Rohs Compliance

To: Whom It May Concern:

PIC Design, a division of RBC Bearings, Inc. provides its customers with gears, linear motion components, belts, pulleys, and precision hardware. Any of PIC's products, which may be used in electrical or electronic devices, are by definition not electrical or electronic parts, rather they are mechanical components.

Under normal conditions of use, PIC's products do not emit any chemicals or other substances. Under our reading of the regulation and the additional communications from the European Chemicals Agency (ECHA), we believe that the products we sell do not need to be registered in their existing form. We are a manufacturer of "Articles". We do not manufacture "substances" or "preparations" and our articles do not involve the "intentional release of substances".

PIC products do not contain any significant amounts of 223 chemical compounds referenced on the List of Substances of Very High Concern (SVHC) through its latest release on 01/17/2022.

All of PIC's standard products are compliant with REACH-EC 1907/2006 Article 33 of EU Regulation 1907/2006. The product(s), Do Not Contain any of the prohibit substances listed in 223 REACH SVHCs as updated by ECHA on January 17, 2022.

All of PIC's standard products are compliant with RoHS Directive 2011/65/EU & Directive (2015/863) amending RoHS 2011/65/EU. The product(s), do not contain the substances listed in the table per EU RoHS 10 substances, Directive 2011/65/EU and its amendment 2015/863/EU in concentrations greater than the listed Maximum limit value at homogeneous material level or comply the current exemptions.

We will continue to monitor ECHA (European Chemical Agency) for changes and will re-evaluate our products status if and when required.
