

Belt & Chain Capabilities

PIC Design is pleased to offer a wide array of timing belts and pulleys, including:

- Miniature and standard timing belts and pulleys
- No-Slip and No-Slide belts and pulleys
- HTD belts and pulleys
- Synchronous belts and pulleys
- Round belts
- Open ended belts

If you can't find a belt or pulley that meets your requirements, PIC Design will work with you to custom design the right solution for your needs.

Specifications:

Circular Pitches	
.080" (MXL)	.250"
.0816" (40 DP)	.375"
.0982 (32 DP)	.15708" (20 DP)
.1309" (24 DP)	3 mm
.1475"	5mm
.200" (XL)	#25

- **Tooth Form** - Involute, Sprocket, Trapezoidal, Curvilinear
- **RPM** - Up to 24,000
- **Operating Load** - 4-100 lbs
- **Body Material** - Polyurethane, Urethane, Neoprene
- **Core Material** - Stainless Steel, Kevlar, Fiberglass
- **Pulley Material** - 303 Stainless Steel, 2024-T4 aluminum, Polycarbonate, Acetal (Delrin®)
